The global **market** is experiencing strong and continuous growth due to increasing demand for safety, digital protection, and advanced technologies.

▶ Advantages

We provide advanced and reliable systems designed to ensure **maximum protection** for users, data, and transactions.

Why Trade Forex?

Grand Secure Solutions

What is the Stock Market?

The stock market is a platform where shares (ownership units) of companies are bought and sold by investors.

◆ Simple Explanation:

- When you buy a stock, you own a small part of that company
- Companies use the stock market to raise money
- Investors aim to earn profit through price increase or dividends

◆ Where It Happens:

Trading takes place on stock exchanges like:

- National Stock Exchange (NSE)
- Bombay Stock Exchange (BSE)

Grand Secure Solutions

How the Stock Market Works

SELL

◆ 1. Companies Issue Shares

Companies raise money by selling shares to the public (IPO – Initial Public Offering).

◆ 2. Investors Buy Shares

People (investors) buy these shares through brokers using stock exchanges like:

- National Stock Exchange (NSE)
- Bombay Stock Exchange (BSE)

◆ 3. Buying & Selling Happens

- Buyers and sellers place orders
- Trades happen electronically
- Prices change every second
